COPY OF PAPERS  
ORIGINALLY FILED

AMENDMENT AFTER FINAL

Assistant Commissioner for Patents  
Washington, D.C. 20231

RECEIVED

JUN 27 2002

Technology Center 2100

Dear Sir:

In response to the Final Office Action mailed on May 29, 2002, please amend the claims of above-referenced application as follows:

**Please rewrite Claim 36 as follows:**

36. (Twice amended) A computer-implemented method for facilitating the analysis of a web site, comprising:

comparing the web site at a first point in time to the web site at a second point in time to identify modifications made to the web site between the first and second points in time, wherein the web site comprises a collection of hypertextual documents interconnected by one or more links; and

generating a graphical map in which at least some of the modifications to the web site are highlighted;

wherein comparing the web site comprises scanning the web site to generate a current representation of the web site, and comparing the current representation to a prior representation on a node-by-node and link-by-link basis to identify the modifications.
